## Provision of Care in a Safe Environment: Update on Patient Rights and Suicide Prevention

Feb. 20 – 10:00 a.m.-12:00 p.m.

**Target Audience:** behavioral health & psychiatric staff, CEO, CMO, CNO, compliance, ED, physicians, safety

**Speaker:** Nancy Ruzicka, federal rules, regulations, and interpretative guidelines consultant

According to CMS and accrediting organizations such as Det Norske Veritas and The Joint Commission, one of the most-cited deficiencies at the immediate jeopardy level is the right of patients to receive care in a safe setting. Ligature risks compromise a patient's right to receive care in a safe setting, and it's the hospital's responsibility to provide care and safety to psychiatric patients at risk of harm to themselves or others.

### Learning Objectives

- Describe the CMS requirements for providing care in a safe environment for patients, specifically patients who are suicidal or in need of behavioral health services.
- Discuss CMS and the adoption of The Joint Commission suicide prevention panel recommendations.
- Identify examples of immediate jeopardy and conditions-of-participation deficiencies concerning patient safety.
- Identify what is required for a physical environmental risk assessment.

## Scout to See Ahead of the Game: Act Today to Create Tomorrow

Feb. 29 – 1:00-2:00 p.m.

**Target Audience:** health care leaders and trustees

**Speaker:** Doug Morse, Executive consultant

In this highly interactive session, leaders will learn about trends affecting health care facilities and discover specific actions to take today to create successful tomorrows. Topics discussed will include Amazon and CVS efforts and the impact of the Apple Watch. Discussion will also include the concept of making big decisions the right way and shaping health care services for natural growth.
